Subject: Microsoft Settlement (Support)

Dear Ms. Heese:

I support the recent settlement of the lawsuit between the U.S. Department of Justice, state attorneys general and Microsoft Corporation.

The majority of Americans also support Microsoft as witnessed by continuing heavy use of their innovative and successful software. The irony of a government trying to destroy a successful business is not lost on many people.

The settlement is fair to all. It will allow Microsoft's competitors to use Microsoft's Windows operating system to incorporate their software programs and will give consumers more services and products to choose from.

As you are well aware, members of Citizens for a Sound Economy have been unrelenting in our opposition to the federal government's antitrust case against Microsoft. For nearly 3 years, activists like myself have called, emailed, visited, and sent letters to the U.S. Department of Justice and to state attorneys' general offices explaining that Microsoft's actions did not harm consumers, but provided them with great benefits by lowering the cost and increasing the availability of software products. We have stressed that Microsoft is a pioneer in the high-technology market and that their products increased our familiarity with the Internet.

Once again, I thank you for your decision to settle this unfortunate lawsuit against a successful and innovative company.

Respectfully,

David L. Williams
